Crafted Interior Cladding

**BRINGING INNOVATION OF
NATURAL
CLAY**

About Us

MCM Flexi Cladding India is a privately held company with its headquarters in Mumbai, India along with a strong presence across the nation with exclusive product display centres. MCM Flexi Cladding proudly boasts of a patented revolutionary cladding technology offering high quality and sustainable cladding projects for both internal and external space.

Ittimi was born out of an incredible concoction of innovation, functionality and superlative aesthetics. Adorned with designs and textures that elevate the senses, it is a range of unfired clay claddings painstakingly created, exclusively for interiors.

The name 'ittimi' epitomizes the magic of clay and its potential of myriad possibilities. Taking inspiration from the natural element - earth - this collection is as down-to-earth and super-elegant as it gets. It possesses the innate ability to breathe a great rush of life into your surroundings.

Applications

Internal wall cladding & ceiling.

(To be pasted using suitable MCM Adhesive)

ROPE STREAM
1800mm X 500mm

Our products are made from natural clay and may contain pin holes, surface anomalies, scratch marks, small size variations (on diagonal less than 2mm), colour variations and thickness variations. These variations are intentional to encapsulate the raw qualities of these rustic, intricate and unique finishes. The variations do not affect the installation, and add to the overall character and aesthetic value. Every piece of Ittimi product inherently lacks uniformity and is subject to variation in aesthetics, design, shade, finish, thickness, density, etc.
